**Subject:** Letter Peer Review for Passaic River Early Action

This is to confirm that we will be doing a letter peer review on the Empirical Mass Balance and supporting Sediment Transport Model in the Passaic River Early Action Focused Feasibility Study. As we discussed, I am planning on using members of our existing Technical Advisory Committee who have not been involved in the day-to-day development of the Empirical Mass Balance and Sediment Transport Model. I need to take a closer look at our Early Action schedule to see when the peer review will be done, but it will be in the Spring. Any advice you can offer when we get closer to that time would be appreciated.
